

ABOUT EKSOY

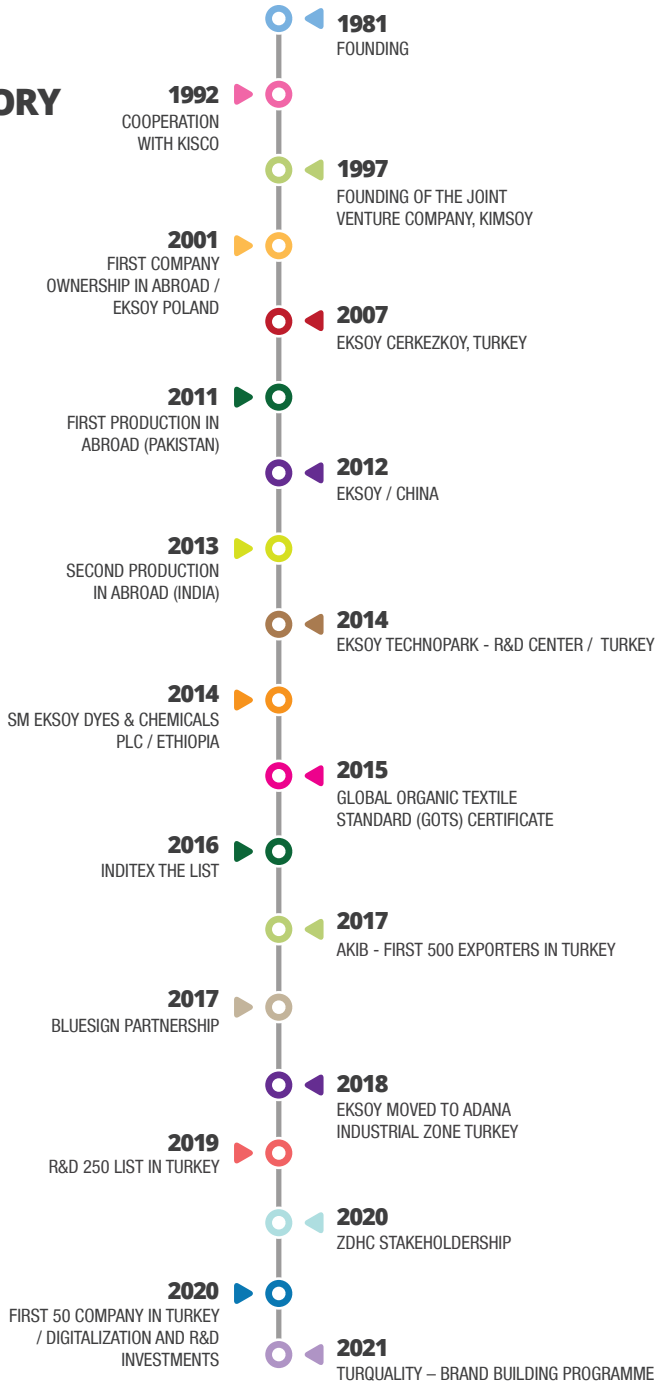

EKSOY has been established in 1981 in order to provide auxiliaries to textile industry. The company reached an intercontinental position with 9 local and abroad laboratories, manufacturing units in Pakistan and India and service locations in Ethiopia and China.

The company became one of the leader companies in dyestuff business by agency agreement with Kisco, the biggest dyestuff manufacturer of South Korea in 1992. This fruitful relation brought joint venture foundation, Kimsoy in 1997 for manufacturing dyestuffs in Adana Industrial zone.

EKSOY had proved itself as a leader company in textile chemicals and dyestuff market as a result of these investments. EKSOY has a warehouse of 2600 m² in Cerkezkoy to distribute the products more rapidly, and a fully equipped customer service and R&D laboratory in this location to give better and just in time service to our customers. R&D Department has moved to modern building in Adana Industrial Zone in 2014.

The laboratory is supposed to upgrade service quality with high technology devices and advanced technicians with masters and PHD degrees. Our company aims to sustain competitiveness in local and abroad markets by manufacturing high value added products and services; to minimize the external dependence; to increase employment and to maximize contribution to economy.

HISTORY

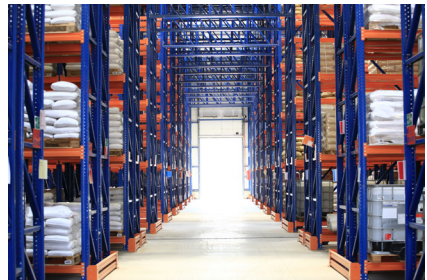

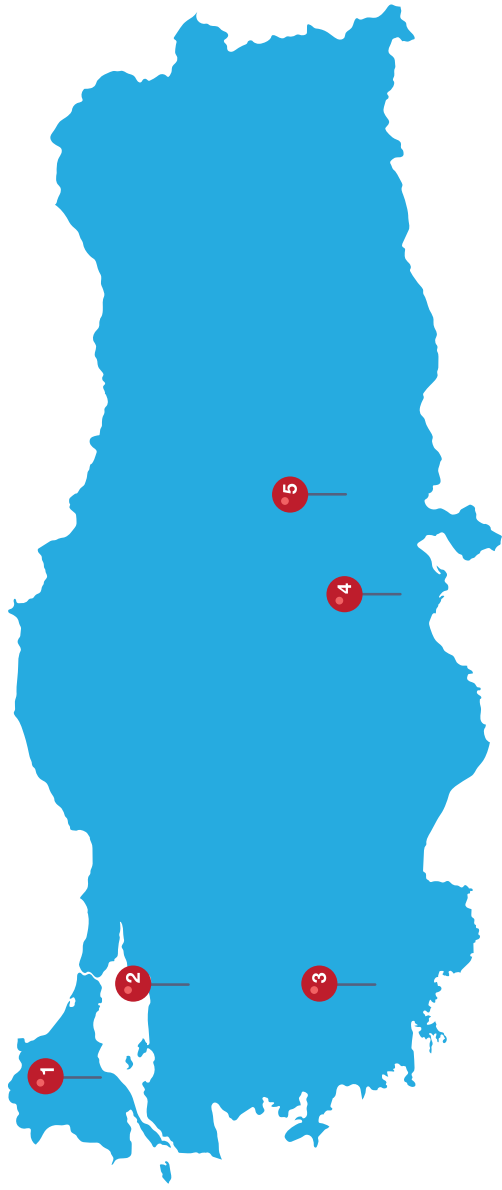

RAW MATERIALS FOR FORMULATORS

Eksoy also supplies raw materials for formulators & dyehouses preferring to manufacture own auxiliaries. Formulation assistance is also provided for the products like sequestering agent, reactive soaping, dispersing agent, softeners & fixers.

EKSOY LOCATIONS / TURKEY

- 1- Tekirdağ W-L

SPECIALITIES

VISCOBLEACH

Low pH Bleaching
Powder for Superior
Whiteness on Viscose/
Modal/Wool

PESCLEAN 2B

PES Reserver During
PES/CEL Reactive Dyeing

SILICONE OILS FOR FORMULATORS

Micro, Macro And
Hydrophilic Type

POLYCLEAR ECO

Sulphur-Free Ecological
Reductive Agent for PES

OUR UNIQUE PRODUCTS

Low water & Energy Consumption Range

UNISIL POLY

Polyester Silicone
Softener With Slippery
and Resilient Touch

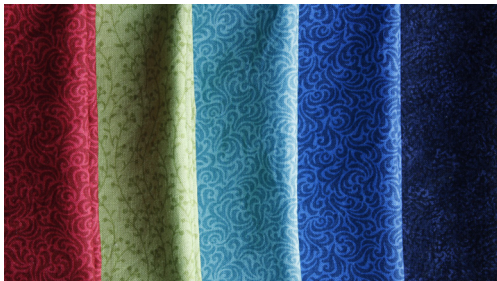

COLORFIX NF SERIES

Low Cationic Fixer to
Speed Up Soaping for
Everyday Use

COTTOBLEACH

pH 9 Bleaching System
for One Bath Bleaching
& Direct Dyeing or
Bleaching & PES/COT
OBA In One Bath

PRIME CLEANER

Polyester Sublimation
Fastness Increasing Agent

OUR UNIQUE PRODUCTS

Low water & Energy Consumption Range

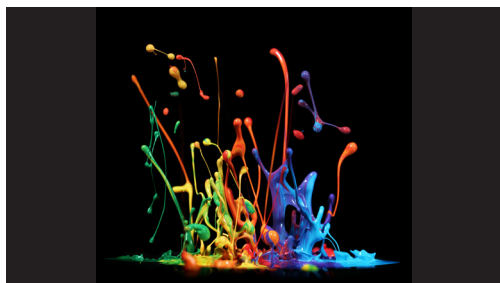

SKYBLUE

Low pH or Temperature
Bleaching System

EXOLINE MAGIC SERIES

Low Temperature
Reactive Soaping

SHADE DYES

pH 7 Reactive Dyes Used
for Single Bath Disperse/
Reactive Dyeing for Pale
Shades

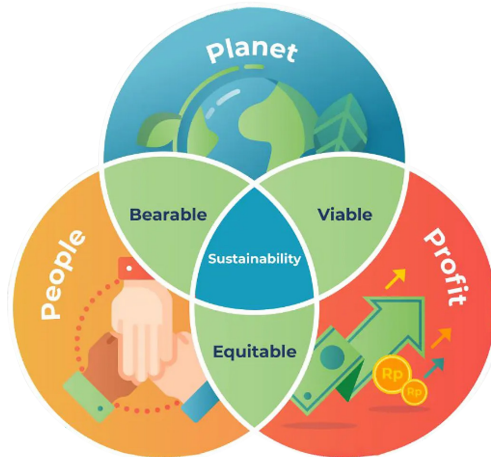

KIMOZOL FSL RANGE

High Fastness, Reactive
Range Designed for
Exhaust

SUSTAINABILITY

PLANET

- Air Emissions Management
- Water Emissions Management
- Solid Waste Management
- VOC Management
- Carbon Footprint Management

PEOPLE

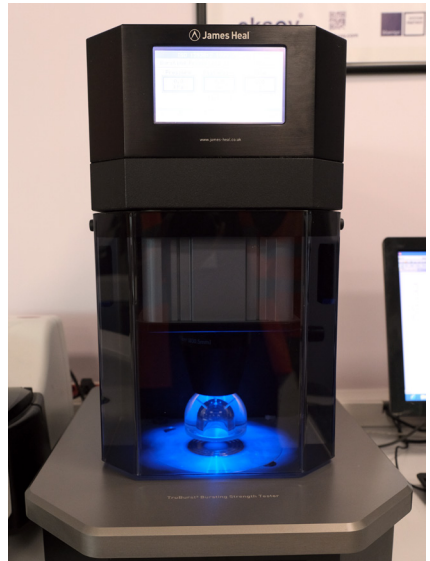

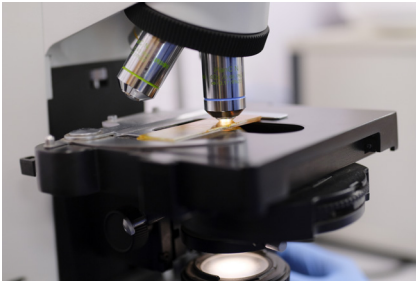

- Implementing ILO issues
- Gender Equality
- OHS and Environmental Trainings
- Job-specific Trainings
- In-company Webinar Trainings in Eksoy Academy.
- Measuring Occupational Exposure

PROFIT

- Product Stewardship
- Using of materials that is other factories's waste as a raw material in our products.
- Reducing of washing times and decreasing of water consumption by using our products.
- Production planning for energy and water efficiency
